Digitized by the Medford Historical Society and Museum

The foregoing accounts present the expenditures of the town for the year ending Jan. 31, 1879, under their proper departments, the various bills and vouchers of which have had our careful attention. We have also examined the books of the Treasurer and Water-Board, and find them, as presented, to be correct.

There remains in the treasury, to the credit of the town, $32,806.37, and to the credit of the Water-Board $10,543.95; making a total of $43,350.32, of which there is on deposit, at 2½ per cent interest, in Howard National Bank, as per cashier's certificate, $42,975.54.

The Collector has introduced a concise and clear method of keeping an individual account with each tax-payer, which shows at a glance the amount of tax, discount, and abatement.

There is a note of $10,000 due Franklin Insurance Co. May 27, 1879.

We would respectfully recommend that the by-laws of the town be so amended that the fiscal year shall end with the calendar year. We find that the business of the town will not allow the Auditors to commence the statements of department accounts until a week or ten days (this year the 13th inst.) after the close of the year. This makes a large amount of labor crowded into a few *nights;* insufficient time for the printing of the Reports in the best manner, and without that interval between the distribution of Reports and town meeting which should be had for proper perusal and consideration.

We would also recommend that the salary of Auditors be established at the rate previous to last reduction ($50), believing that if the citizens of the town were aware of the amount of labor attached to our department they would deem the present salary ($30) entirely inadequate.

The appropriations asked for by the Boards of Officers for the ensuing year are as follows: —

REPORT OF THE SELECTMEN, OVERSEERS OF THE POOR, AND SURVEYORS OF THE HIGHWAYS.

ALMSHOUSE.

THE Almshouse the past year has been under the charge of Mr. and Mrs. Andrew Govan, whose administration of the affairs of this department has been satisfactory to the Board.

The number of inmates during the year ending Jan. 31, 1879, who have received full support is 6. Their names and ages are as follows: —

	YEARS.
Samuel Darrah	77
Samuel Stevens	76
Charles Putnam	71
David Weir	76
Gilbert Parker	68
Mrs. R. Hayden	83

The number who have received partial support is 8. Their names, ages, and time of residence, are as follows: —

	AGE.	TIME OF RESIDENCE.
Samuel Bryant	70 years	6 months
Robert Powers	80 years	5 months
Mrs. R. Powers	65 years	5 months
Elsie Kitteridge	79 years	6 weeks
James Cramphorn	50 years	2 months
W. W. Babbitt		6 weeks

Digitized by the Medford Historical Society and Museum

Mary McDonald		6 weeks
David A. Craig	21 years	6 weeks

Elsie Kitteridge died May 25, 1878.

Number of inmates, Jan. 31, 1879	10
The estimated amount of property on hand, Jan. 31, 1879, is as follows, viz.	$2,625 34
Amount appropriated	$2,500 00
expended	2,417 43
of receipts from produce sold	225 87
Cost of this department for the year ending Jan. 31, 1879.	2,181 56

This includes the cost of feeding tramps.

The number of tramps received and cared for at the Almshouse during the year ending Jan. 31, 1879, is as follows: —

February, 1878	62
March, 1878	77
April, 1878	75
May, 1878	91

July, 1878	6
August, 1878	23
September, 1878	39
October, 1878	53
November, 1878	65
December, 1878	63
January, 1879	118
Making a total of	732

CLAIMS.

The question of the re-imbursement of money paid by purchasers of real estate sold for non-payment of taxes, is constantly pressing itself upon the attention of your Board. Demands have been made upon the town by Messrs. A. V.

Digitized by the Medford Historical Society and Museum

Lynde of Melrose and John P. Perry of Medford, for the re-imbursement of money paid by them, with interest at the rate of 10 per cent per annum from the date of payment. There are also other claims of a like nature involving quite a considerable amount of money, which it is intimated will be soon presented.

By virtue of Chap. 266 of the Acts of the year 1878, the Collector of taxes is authorized to take measures to redeem real estate sold for non-payment of taxes, whenever he has reasonable cause to believe that the title created by any deed given in consequence of a sale for non-payment of taxes is invalid from any cause.

But as this act is construed to be merely permissive of action by the Collector, and as the investigation and settlement of these claims is a matter of considerable expense, for which no provision has been made, the Collector has hesitated to assume the responsibility of incurring such expenses without authority from the town. We deem the matter of so much importance, that we hereby recommend that the Collector of taxes have full powers granted him, and that he be instructed to take such action in relation to the redemption of invalid tax-titles as may seem to him to be best for the interests of the town; also, that he be instructed not to sell any real estate for non-payment of taxes, until he is assured that such tax has been legally assessed; and further, that he shall not advertise any real estate for non-payment of taxes, unless he gives such a substantially accurate description of the same as is required by the General Statutes and in conformity with the decisions of the courts upon such cases.

We also recommend that the Treasurer be instructed to appropriate out of any funds in his hands the amount due in respect to such tax-deeds before mentioned, for the use and benefit of the persons entitled thereto, and that he shall pay it over on reasonable demand.

At the town meeting held in November last, the claim of Mrs. Wm. Hill for damages sustained by reason of falling over

Digitized by the Medford Historical Society and Museum

a water-gate in the middle of a sidewalk on High Street, was referred to the Selectmen for adjustment. Mrs. Hill claims damages to the amount of one hundred dollars, as a compensation for injuries sustained; and your Board are of the opinion that the amount claimed is a reasonable one, and we therefore recommend an appropriation to meet the same.

There is also a claim of Daniel Peabody of Stoneham for injuries alleged to have been sustained by falling from his wagon at the corner of Main Street and Washington Avenue. Your Board were of the opinion that the interests of the town required us to resist this claim; and, as a consequence, suit has been brought by Mr. Peabody, and the case is now in court.

DECORATION AND CARE OF SOLDIERS' GRAVES.

It has been customary for the town in past years to make an appropriation for the decoration and care of soldiers' graves. We recommend an appropriation for the ensuing year.

HIGHWAYS.

The sum of $5,000 was appropriated at the annual meeting in March last for the repairs of highways. During the month of February next preceding the annual meeting, this department expended about $800, which amount was paid from the amount granted at the annual meeting. We were also obliged to make very considerable repairs on Middlesex Avenue and Medford Street; also to repair damages caused by the heavy rains during the latter part of the season, which unexpected draft upon our appropriation obliged us to ask for additional funds at the November meeting.

In view of the fact that our streets generally are in a fair condition, (with the exception of Medford Street, the repairs upon which, commenced the last season, should be completed the coming season,) we are of the opinion that the sum of $5,000 will be sufficient for the wants of this department the ensuing year.

Digitized by the Medford Historical Society and Museum

The estimated amount of property on hand the 31st of January, 1879, belonging to the highway-department, is $3,925.15.

Amount appropriated	$6,000 00
Amount expended	5,983 78

Herewith we submit the Report of the Chief of Police for the year ending Jan. 31, 1879.

OFFICE OF CHIEF OF POLICE,
MEDFORD, Feb. 1, 1879.

To the Honorable Board of Selectmen:

GENTLEMEN, — I have the honor to submit to you my annual report for the year ending Jan. 31, 1879.

The department consists of eight men.

Appropriation	$4,200 00
Expended to Feb. 1, 1879	4,181 15

WORK DONE BY THE POLICE.

Arrests, 101: males, 95; females, 6. Americans, 59; foreigners, 42.

Lodgers, 95: males, 88; females, 7. Americans, 44; foreigners, 51.

NATURE OF ARRESTS.

Assault and battery	18
Common drunkards	1
Drunkenness	24
Disturbing the peace	6
Insanity	1
Liquor nuisances	2
Larceny	14
Violation of dog-law	3
Violation of town by-laws	19
Vagrancy	1
Cruelty to animals	3
Adultery	1
Disturbing religious meeting	3
Common railer and brawler	1

Breaking and entering	1
Discharging fire-arms on street	1
Rape	1
Arson	1
Total	101

1 of the above was sent to Bridgewater Workhouse.
1 " " " Worcester Asylum.
4 " " " House of Correction.

Value of property taken from and returned to persons under arrest	$11 35
Amount of fines imposed by the court	548 89
Amount received from the court for violation of town by-laws, and paid to town treasurer	82 25
Received from Malden court, for use of lock-up, and paid to town treasurer	8 50

MISCELLANEOUS.

Cases investigated	5
Defective water-pipes reported	4
Fire-alarms given	8
Stray teams put up	8
Stores found open and secured	10
Intoxicated persons assisted home	3
Dogs killed	4

Four children from out of town have been found, and returned to their homes.

Two persons have been arrested, and turned over to the custody of out-town officers.

Defects in streets reported	13
Defective gas-pipes reported	4

About fifteen gallons of ale and liquor have been seized, and turned over to State by order of court.

Respectfully,

GEO. W. W. SAVILLE, *Chief Police.*

REPORT OF THE ENGINEERS OF THE FIRE-DEPARTMENT.

THE year just closed has been for the town a very fortunate one, as far as the loss of property by fire is concerned.

We have been called out, during the time between our last report and the present, six times. The loss above the insurance is very slight, much less than it would have been were it not, for the promptness with which the department has responded when called upon. We take a very just pride in our fire-department; and we take this time to thank them for the manner in which they have performed their duties, and for their conduct, both as firemen and citizens. Below we give a list of fires and the date of their occurrence.

March 30. — William C. Hastings's house, Forest Street.
Sept. 11. — House on Sprague Court.
Oct. 1. — S. W. Hall's house, Boston Avenue, W. Medford.
Nov. 7. — J. McCraighan's barn, Riverside Avenue.
Dec. 9. — Barn at Cattle Yard, near Somerville line.
Jan. 31, 1879. — Burning chimney, George Greenleaf's house, Fulton Street.

We have purchased during the year of Hunneman & Co. of Boston, by authority of the town given at the last annual meeting, a four-wheeled horse hose-carriage; and in our opinion there is not a better carriage for the purpose in the country. It is supplied with all of the most approved and modern appliances, and is in every respect a first-class carriage. When we asked the town to purchase this piece of fire apparatus, we thought that we were doing the best possible thing for the better protection of property in case of

Digitized by the Medford Historical Society and Museum

fire, that we could do. Experience since has proved that we were correct; as now when an alarm is given, we have found that this carriage with its company is at hand in an almost incredibly short time, and the men are fresh and ready for their work; and not exhausted from the labor of drawing a heavy carriage, loaded with hose, &c., sometimes a mile or more. To bring this to so good a state of efficiency, we have been obliged to go to some expense; but you will see, by our statement of expenditures, that we have kept within our appropriation, and have done many things which we did not see before us when we asked the town for money last spring. The house where this carriage is kept has been remodelled inside, so that we now have a compact and very convenient stable, where a horse is at all times ready, at a moment's warning, to start from his stall, and with the carriage be away for the scene of fire.

There can ride on this carriage from one to ten men; and, as we have said before, the men are not exhausted when they arrive where their labor is needed. Any one who will take the trouble to go to this house, and see what the arrangements are that have been made, will see at once, that the most important thing connected with a fire-department, which makes it efficient, promptness in getting to a fire and at work, has been provided for as far as possible.

The steam fire-engine has been thoroughly overhauled, and repaired, having had a new boiler, and other connections, and is now in perfect order. We found, upon getting the old boiler out, that we were justified in our action, as it was badly eaten, and liable to give out at any time. We shall be obliged to paint the wood-work of this engine during the ensuing year, and that is all that will have to be done to this piece of fire apparatus.

As we could come to no satisfactory arrangement with the Selectmen to draw our apparatus to fires, &c., we made a contract with G. W. W. Saville to furnish horses for that purpose for six hundred and twenty-five dollars per annum; and

Digitized by the Medford Historical Society and Museum

during the time that he has had the contract, he has performed the duty in a very satisfactory manner. We have lately purchased of him the horse that he furnished to draw the hose-carriage, and have now under our own control this horse and driver, and shall always know, that, in case of fire, they will be at hand very soon after the alarm is given. To have the fire-department just what it should be, it ought to own all the horses that are needed to draw its apparatus: so that the engineers would know that they would not have to wait any great length of time for the means of extinguishing a fire, as they have had to, and will always be liable to if the horses belong to some other person or department, and are at work in a distant part of the town.

The houses of this department have been thoroughly inspected, and some repairs made, during the year; and we know of nothing of any consequence that it will be necessary to do to them during the ensuing year.

The carriage of the Mystic Hose Co., which we put out of service last year, has been sold to the town of Methuen for the sum of $350, and fifty feet of rubber-lined cotton hose, which would be equivalent to about $45, making the full amount received $395. This sum should be placed to our credit.

The reservoirs in the different sections are all in good order, and serve as a source of supply should we have need of them at any time. The hydrants being under the control of the Water-Board, we refer you to their report for any information you may desire in regard to them.

We have purchased of James Boyd & Son five hundred feet of rubber-lined cotton hose; and we have now, in good condition, about six thousand feet of the different kinds of hose. There will be no need of purchasing any hose this year, unless something happens to that which we now have.

We have had a petition presented from West Medford, asking for a horse hose-carriage for that part of the town; and to bring the matter before the citizens for action we

Digitized by the Medford Historical Society and Museum

would report, that the expense of making the change would be about the same as to keep the present company in existence, exclusive of the cost of the carriage.

To be more plain, a horse hose-company of eight men would cost for salaries four hundred dollars, for driver and steward one hundred dollars; and if the town should purchase a horse, and keep him all the year round, that would be, for the cost of the horse and keeping, about four hundred dollars more, making a total of nine hundred dollars. As the company is now constituted, it costs seven hundred and fifty dollars for salary, and fifty dollars for steward's pay, making a total of eight hundred dollars, a difference of one hundred dollars in favor of the hand-carriage. For ourselves, we are strongly in favor of placing a horse hose-carriage at each end of the town. We believe it is economy in the end to run the department by horses; and we know, without a shadow of doubt, that the question of its efficiency cannot be contested for an instant.

We would recommend that the firemen be paid the same as last year, viz., fifty dollars.

We recommend that for extinguishing fires in woods the sum not expended last year be re-appropriated, — one hundred dollars.

Owing to our having to make new arrangements for drawing our apparatus, and as we were obliged to pay a larger sum than was appropriated by the town ($450), we are deficient in that appropriation; and it will be necessary for you to make an appropriation to cover this deficiency.

We have paid the town for drawing, from Feb. 1, to June 15, at the rate of $450		$168 75
Paid G. W. W. Saville, from June 15 to Nov. 15, five months at the rate of $625		260 40
		$429 15
Amount appropriated	$450 00	
Balance on hand		20 85
		$450 00

Digitized by the Medford Historical Society and Museum

We shall need to pay from Nov. 15 to Feb. 1, $130.21; and we recommend that this sum be appropriated.

We recommend that the sum of $5,530.21, be appropriated for the expenses of this department during the ensuing year. We give below our estimate of what will be required: —

For ordinary expenses	$5,000 00
drawing apparatus	530 21
	$5,530 21

EXPENDITURES FOR 1878.

Ordinary expenses, amount appropriated	$5,600 00
Ordinary expenses, amount expended	5,332 21
Amount unexpended	$267 79
New hose, amount appropriated	$500 00
New hose, amount expended	456 30
Amount unexpended	$43 70
Drawing apparatus, amount appropriated	$450 00
Drawing apparatus, amount expended	429 15
Amount unexpended	$20 85
New hose-carriage, amount appropriated	$600 00
New hose-carriage, amount expended	600 00
New boiler in steam fire-engine, amount appropriated	$1,000 00
New boiler in steam fire-engine, amount expended	1,000 00

REPORT OF THE CEMETERY COMMITTEE.

In rendering their Report, your Committee would say, that in accordance with suggestions made to the committee of last year by E. W. Bowditch, landscape gardener, and annexed to their Report, they have adopted his views in the manner of laying out and grading lots, and call the attention of the citizens to the same.

The plan is to dispense with terraces as far as possible, retaining the natural surface of the land with smooth and even slopes, thus adding much to the beauty of the lots, and to the convenience in taking care of them.

Much has been said every year about the care of lots, and certainly it is not without cause. Many of the lots have comparatively little care; as the owners do but little to them, and are not disposed to pay others for the work.

Your Committee do not feel under obligations to take the same care of lots, the proprietors of which are unwilling to meet the expense, as of those paid for: therefore many of the lots are left partially cared for, much to the detriment of the Cemetery.

Where money is left for the perpetual care of lots, your Committee would recommend that the town give a bond for the amount received, and make it the duty of the treasurer to pay to the Cemetery Committee each year six per cent on the amount named in the bond, to be expended annually on the lot.

In many cemeteries no lots are sold without a deposit in money, the income of which must be sufficient to keep the lot in a condition satisfactory to the Committee. In order to

Digitized by the Medford Historical Society and Museum

obtain the best results, your Committee recommend that the town adopt a similar course in the election of Cemetery Committee as of the School Committee; viz., that the term of office of only a minority of the Board expire the same year.

Under the present mode of election, the town is liable to have an entirely new Board, who might work detriment to the plans made and work commenced by former committees.

We call the attention of the incoming Committee to the poor condition of the fence around the Cross-street grounds: much of it will have to be replaced by new. These grounds have received proper care the past year, and are in good condition, as are also the grounds on Salem Street.

The interments from citizens of the town have been as follows: —

In Oak-Grove Cemetery	60
In Cross-street Grounds	11
In Salem-street Grounds	4

The services of John Leary as manager of the work at the Cemetery have been continued the past year, and have been cheerfully approved by the Committee. By his good judgment and careful management, a large amount of work has been accomplished at a very reasonable cost.

Within a short time it will be desirable to commence working the new grounds recently added to Oak-Grove Cemetery; but, before this is done, it seems best to your Committee that many important changes should be made, both in the by-laws and general government of the Cemetery. In view of this fact, as well as the suggestion in regard to the change of the election of the Cemetery Committee and the proposition for the care of lots by the deposit of a sum of money with the town treasurer, instead of leaving it by will to the town, each case of which requires acceptance by special vote, your Committee believe the better course will be for the appointment of a committee of three to act with the Cemetery Committee in determining and reporting at

Digitized by the Medford Historical Society and Museum

some future time such changes and suggestions as seem best to them, as your Committee think that a matter of so much importance should be carefully considered before any action is taken.

Amount appropriated	$1,000 00
from sale of lots, &c.	1,000 00
from perpetual care	32 00
	$2,032 00
Amount expended	2,026 28
Balance unexpended	$5 72

Your Committee would recommend, for general care, an appropriation of $1,000; and that the Committee be authorized to expend, in grading and preparing new lots, such sums as may be realized from the sale and care of lots, not exceeding $1,500.

BENJ. R. TEELE,
WILLIAM C. HASKINS,
JAPHET SHERMAN,
} *Cemetery Committee.*

MEDFORD, Feb. 15, 1879.

REPORT OF THE LIBRARY COMMITTEE.

No change worthy of special note has been made in the management of the Public Library during the past year. The library and reading-room continue to be open every afternoon in the week (except Sunday) from 2 to 5 o'clock, and on Tuesday, Thursday, and Saturday evenings, from 7 to 9 o'clock. The facilities thus afforded are unusually liberal, and we believe they meet all the reasonable desires of the public.

The number of books issued the past year is 30,179. The agency which has been established for the supply of books from the library to the inhabitants of West Medford has met a real want of that section of the town, and the accommodation has been afforded at a comparatively trifling expense. A large number of books have been distributed through this medium the past year.

With the great increase of the circulation of books the past three years, a corresponding increase in their wear and tear is painfully noticeable. The officers of the library keep a watchful eye over the condition of the books, and it is only by the most careful attention that the collection is kept from rapid deterioration. We wish we could say that *all* the patrons of the library mark their grateful recognition of the liberality of the town by the care which they take of the books so generously loaned them. We are sorry to state that there are frequent instances of abuse of the privileges accorded, shown in the careless and rough manner in which books are handled, in the needless soiling of the covers, and in the defacement of the leaves. We have in several in-

Digitized by the Medford Historical Society and Museum

stances been compelled to refuse the privileges of the library to parties who have been found guilty of these practices; and it will be the policy of our successors to hold such offenders to rigid accountability, even to the full penalties of the law.

For the first time since your Committee's connection with the library, a case of theft of books has been discovered. The offender — who falsely claimed residence in this town, as he had in several others, for the same purpose — is now serving out a term of six months' imprisonment at hard labor. Great credit is due to Mr. B. W. Clark, bookseller in Boston, to whom the stolen books were offered for sale, and through whose instrumentality the criminal was convicted.

We again call attention to the regulation under which books of a certain class (history, science, philosophy, or theology) are allowed to be kept for *thirty days*. Few people can find time within the space of a fortnight to complete the perusal of such books as require patient study or thoughtful reading. We have felt bound to consult the convenience of readers of this class of books, and avail ourselves of this opportunity to make the regulation more generally known.

We present the following statistics of the library for the past year: —

Number of books in the library, Jan. 1, 1878		7,524
purchased from Jan, 1, 1878 to Jan. 1, 1879	281	
donated	14	
		295
		7,819
worn out	43	
replaced	10	
		33
in the library, Jan. 1, 1879		7,786
issued during the year		30,179

Digitized by the Medford Historical Society and Museum

The following persons have presented books to the library during the past year: —

Elizur Wright	4 vols.
D. H. Brown	3 "
Mrs. W. H. DeCosta	2 "
B. F. Hayes	2 "
W. Belcher	1 "
Secretary of Commonwealth	1 "
Nicholson File Co.	1 "

The financial statement for the year is as follows: —

Town appropriation	$1,600 00
Money received from dog-tax of 1877	582 55
Income from "Tufts Fund," 1877	30 00
	$2,212 55

The expenditures have been as follows: —

For books	$628 96
Librarian's salary	600 00
Assistant Librarian's salary	250 00
additional assistants' salary	42 00
gas, $129.01; water-rates, $5.00	134 01
fuel, $73.81; ice for two years, $20.00	93 81
paper for covers, $15.30; book-case, $19.00; repairs, carpentering, $28.63; painting, $13.40; plumbing, $2.15; furniture, $22.95; furnace, $2.90; cleaning, $8.73	34 30
janitor's services	78 76
care of grounds	75 00
printing 100,000 blank orders	46 72
printing 7,000 regulations, 1,850 postal-cards, &c.	50 00
delivery of books at West Medford	27 25
binding and rebinding books	102 00
	48 80
	$2,211 61
Balance unexpended, Feb. 1, 1879	$0 94

Digitized by the Medford Historical Society and Museum

The Librarian has received the following sums: —

Cash unexpended, Feb. 1, 1878 . .	$1 92	
From the sale of waste paper . .	1 06	
Fines	77 16	
		$80 14

His expenditures are as follows: —

Cleaning, $11.96; stationery, $4.55; postal-cards, $15.00; expressage, $3.65; post-office box rent, $2.00; incidentals, $14.22	$51 38	
Smith, Doolittle, & Smith, gum tragacanth	5 20	
H. C. DeLong, cash paid for books . .	6 00	
F. Leypoldt, book	5 00	
Charles Scribner's Sons, book . . .	7 50	
		75 08
Balance unexpended		$5 06

The Committee recommend an appropriation of $1,600 to meet the expenses of the library the ensuing year.

REPORT OF THE BOARD OF HEALTH.

Our labor the past year has been wholly in the ordinary line of duty, nothing extraordinary or unusual having demanded attention.

Most of the sickness experienced in town has probably been such as no precautions of the Board could have prevented; and we are aware, that, were the sanitary appointments of the town as perfect as man can make them, there would yet be constant demand for medical advice and treatment.

The diseases ordinarily regarded as contagious (one of which, scarlatina, has prevailed to considerable extent for several years past) have been of a mild type. Of the one hundred and eight deaths in 1877, but twelve were from such diseases; and of the same total for 1878, only five were thus occasioned. But the future may not be so lenient. Those diseases are liable to assume the same malignancy in Medford that they have assumed during the past year in many other localities, where they have stricken the people with terror, closed the doors of the schoolhouse, and clad many a family in mourning.

We should not wait for such a calamity to arouse our vigilance. So long as *any* die of diseases that may to any degree be prevented, and so long as constitutions may be impaired by them or intense anxiety and distress arise from them when not resulting in death, the Board and the citizens generally have a responsibility upon them to use their best endeavors to dispel the danger.

We have seen too frequent proofs that people are not

Digitized by the Medford Historical Society and Museum

cautious enough in the use of preventives. Some are willing to incur a risk of health, of life even, rather than make the small pecuniary sacrifice essential to warrant safety. They insure houses, so that if the fire devours them others may rise in their place; but human life they too often trifle with, as if the loss of a child but little concerned the parent, and the loss of the parent but little concerned the child.

As the burglar is most likely to lurk for opportunities in neighborhoods that have the most unbolted doors, so the death angel canvasses most for victims in those localities where ignorance or indifference or incapacity to forestall offers the most pressing invitations. And, as sometimes happens, those who are carefully hiding from the eyes of the health committee some fountain of pestilence on their premises, are warming a viper in their bosoms that may at any time wound them unto death.

As required by law, the Board at the beginning of the year published in our local paper such health regulations as the public good seemed to require and the State statutes authorize them to enforce. Though most of these have been practically complied with, yet some of them have not been observed with the carefulness they merited.

"Prevention is better than cure;" small streams are more easily turned than large ones. And it was on this principle, for instance, that the Board required every householder who knew that a person in his family was taken sick of small-pox, scarlet-fever, diphtheria, typhoid-fever, or any other disease dangerous to public health, should give them immediate notice thereof; also, that every physician called to visit persons sick of those diseases should at once give information of the fact; and, further, that children from families or houses so infected should not be allowed to attend school without the Board's written permission.

Were such rules carefully observed in every town, the local boards would be able to report truthfully to the State

Digitized by the Medford Historical Society and Museum

Board of Health the extent of those calamities; and such investigations could be by that Board inaugurated as would, perhaps, result in immense benefit to the State and to the world.

That Board recently issued a circular relating exclusively to one of the above-named scourges; and we cannot here give the citizens of Medford better advice than to urge upon them a careful perusal of the following extracts from that paper: —

"Scarlet-fever, scarlatina, scarlet-rash, canker-rash, and rash-fever are names of a contagious and infectious disease of varying degrees of severity, but in which all the forms are capable of conveying the most severe type. A person may become ill with fatal scarlet-fever from association with another who had so mild an attack of the disease as not to keep him in the house, much less in bed."

"The exhalations from the outer and inner surfaces of the various parts of the body, and from the excretions also, are capable of transmitting the disease."

"The contagious matter is capable of retaining its power to carry the disease for a long time — certainly many months, and possibly for a year or more — unless destroyed.

"The means of transporting the contagium of scarlet-fever may be furnished by any thing that has come in contact with an infected person or object, — air, food, clothing, sheets, blankets, whiskers, hair, furniture, toys, library-books, wall-paper, curtains, cats, dogs, &c. Funerals have occasionally spread the disease, the exhalations from the dead body being also dangerous.

"The period from exposure which results in scarlet-fever, to the time when the symptoms manifest themselves, varies from several hours to three and possibly four weeks. The average time is variously given from six to eight or ten days."

"The first principle of treatment is in isolation, which can be nowhere so well observed as in a hospital, provided the patient is old enough to go there. Otherwise he should be placed in a room as much separated from the rest of the house as possible, and communicate with no more members of the household than is absolutely necessary."

"All carpets, upholstered furniture, window-hangings, and, indeed, unnecessary objects of every kind, especially woollen, should be removed from the room. Bits of carpet may be used, and burned after the need for them has passed."

Digitized by the Medford Historical Society and Museum

"The food left uneaten by the patient should never be carried where it may infect other persons."

"Attendants on the sick should be as few as possible, and should not communicate with other persons any more than can be helped. They should wear only such clothing as may be readily washed. Clothes used in the sick-room should be boiled before being worn elsewhere. Gargling or washing the mouth occasionally with a cleansing fluid is a useful measure for those who must be exposed to contagion; and in washing the hands, a little Condy's fluid (permanganate of potash) may be placed in the basin.

"After recovery, the patient should not mingle with other persons, use lounges, carriages, public rooms, &c. liable to be used by others, until all roughness of the skin has disappeared, and until he has taken warm baths for several days."

"Should the sick person die, the body ought not to be removed from the sick-room until it has been sealed in the coffin, with carbolate of iron, carbolized earth, or some similar agent. It is advisable that the funeral should be as private as possible, and not attended by children."

"We are fully aware that many individual cases of scarlet-fever occur without any spread of the disease; but the rule is to the contrary, and we have no means of knowing that we are safe, without taking precautions which a different course might occasionally have proved to be unnecessary."

WATER-COMMISSIONERS' REPORT.

WATER-COMMISSIONERS' OFFICE,
MEDFORD, Feb. 8, 1879.

THE Water-Commissioners submit this their ninth Annual Report.

We have again to report a very favorable season for the works under our charge. The winter was favorable in the absence of excessive frost, and the rains of summer were so distributed that no severe or unusual draft was made upon the water-supply. By careful economy we have been able to keep the maintenance account at a very low figure, lower probably than can be expected in the average of years, and have still kept the works in full efficiency, while our equipment for work and material on hand is equal to, if not in excess of, what it has been in former years. During a part of the year we have been able to keep our men employed in making pipe for some of the neighboring towns. We engaged in the work with some hesitation; but, feeling satisfied that it was the prudent course to pursue, we adopted it, and the result has been a considerable offset to our maintenance account, while the men have been immediately at hand whenever their services were needed. The possibility of a break at any time in the mains, or of damage to services, and the absolute necessity of immediate attention when any thing is the matter, render it impossible to dispense with the services of two or three experienced men. By employing them in this work they were at hand at all times; and the amount received for the pipe they made restored the material and machines used, paid their wages for the time employed, and a little more, enough at least to compensate for the shop-room and

Digitized by the Medford Historical Society and Museum

similar expenses without adding to our necessary expenditure in this last respect.

We annex the customary table showing height of water in the pond, taken at tri-monthly periods during the year. It will be noticed that the lowest point reached is twenty-seven inches below high-water mark, or four inches higher than the lowest point last year. During one hundred and sixty-seven days of the period covered in the Report the water has overflowed.

JOINT WATER-BOARD ACCOUNT.

The whole amount paid on this account during the year has been $16.67; and we have thought it more economical not to spread the details of this expenditure through a printed page.

SERVICES.

Twenty-three services have been put in during the year, which is very well for a time of depression like the present.

CARE AND SUPERINTENDENCE.

Mr. Gow remains in charge as Superintendent, and we still have occasion to be satisfied with his skill and efficiency. We commend as before his ability, prudence, and economy in the care of the works. His report to us is herewith submitted: —

SUPERINTENDENT'S REPORT.

To the Medford Water-Commissioners:

GENTLEMEN, — I respectfully submit my annual report of the work done on the works under my charge for the year ending Jan. 31, 1879.

THE POND

Has afforded a more abundant supply than during previous years, as the annexed table giving the height of water taken tri-monthly will show. The main pipe leading from the gate-house is still in perfect order, with the exception of that portion of it between the bulkhead and the gate-chamber. This part of the cut is always flooded during such times as the water in the pond is within three feet of high-water mark.

DISTRIBUTION-PIPE.

There have been forty-one leaks repaired during the year, at a cost of $208.70: this includes labor and materials.

Four hundred and sixty feet of four-inch pipe have been

Digitized by the Medford Historical Society and Museum

lowered on account of change of grade 260 feet on Otis and 200 feet on Riverside Avenue, W. M., at a cost of $95.38. About three and a half miles of pipe have been made and lined at the works this year, together with 247 feet of branches. There has been laid 892 feet of pipe in four streets during the year, which has been added to the table of pipe laid in previous years.

HYDRANTS.

The hydrants are all in good order at the present time. The expense of oiling, clearing the snow from them, and repairs, is $98.00. One new one has been placed on High Street, near Usher's block, which has a six-inch inlet and three nozzles with independent gates to each.

One four-inch has been set at the corner of Harvard and Riverside Avenues, to take the place of one that was broken.

GATES AND GATE-BOXES.

The gates have the appearance of being in good order. Twenty-one decayed wooden boxes have been replaced by iron ones, at a cost of $63.50.

SERVICES.

Twenty-three services have been put in during the year, using 466 feet 9 inches on the works, and 139 feet 6 inches of extra pipe. Two one-inch services have been laid for parties who have paid for the same. Fourteen cast-iron boxes have been used in the place of wooden ones. Seventy-one services were shut off by request, on account of vacant premises, or for non-payment of water rates, forty-eight of which were let on again by payment of the amount due and the usual fine. Twenty-six that were shut off in previous years have been let on by the payment of the regular charges.

Respectfully submitted,

ROBERT M. GOW, *Superintendent.*

Digitized by the Medford Historical Society and Museum

CONSTRUCTION.

We have as heretofore made and lined our own pipe this year, and are more than ever satisfied that it is true economy to do so.

TOTAL EXPENSES AND RECEIPTS.

The total expenditures and receipts of the department from all sources during the year are given herewith, expenditures in the debtor, and receipts in the creditor account.

AGGREGATE EXPENSE ACCOUNT.

Cr.

Cash on hand, Feb. 1, 1878	$6,663 68
Construction appropriation	3,000 00
Maintenance appropriation	4,560 00

A. S. Symmes, shoeing and repairs	32	25
Total miscellaneous, $6,264.32		
Balance, cash on hand	8,526	69
Total	$32,731	01

Digitized by the Medford Historical Society and Museum

The foregoing service and maintenance account is to be corrected as follows: —

Amount given above		$6,264 32
Deduct amount charged to construction, viz. 352 feet pipe, 2 inches, 32 cents	112 64	
540 feet pipe, 4 inches, 84 cents	453 60	
2 hydrants	115 00	
2 gates, 2 inches, $3.95	7 90	
1 gate, 4 inches	16 25	
3 gate-boxes, $3.15	9 45	
23 services, $15	345 00	
		$1,059 84
Net maintenance account		5,204 48

The following unexpended balances remain of appropriations: —

Damages, suits, and construction	$2,017 26
Interest, service, and maintenance	8,526 69
Total	$10,543 95

It will be seen, from the foregoing, that there is an increased balance on maintenance account of about two thousand dollars to the credit of the department this year, as follows: —

Balance, Feb. 1, 1878	$6,569 91
Balance, Feb. 1, 1879	8,526 69
Excess	$1,956 78
In addition to the above, the value of stock on hand is in excess of last year	41 27
	$1,998 05

Digitized by the Medford Historical Society and Museum

This amount we understand to belong under the charter to the Sinking-Fund; and we recommend that the Town order the transfer forthwith of two thousand dollars from the balance of maintenance account on hand to the Sinking-Fund Commissioners.

Of the construction account a balance still remains on hand of $2,017.26. We have reason to believe that something more than this amount should be at the disposal of the Board for construction. If it is not needed, it certainly will not be spent.

The estimated requirements for the year are as follows: —

Interest account	$18,120 00
Maintenance, service, &c.	3,500 00
Sinking-Fund	5,000 00
	$26,620 00
Total receipts, including cash on hand on maintenance account, and water-rates collected and available to meet above expenditures	18,000 00
Leaving to be provided for	$8,620 00

RECOMMENDATIONS.

We recommend the appropriation in the customary manner of the amount required as shown above for interest, maintenance, service, and Sinking-Fund account, viz. $8,620 new appropriation.

We recommend the re-appropriation of the balance of construction account on hand, and in addition the sum of five hundred dollars for construction account for the ensuing year.

DAN. A. GLEASON,
WM. B. THOMAS,
F. E. FOSTER,
Water-Commissioners.

REPORT OF THE COMMISSIONERS OF THE MEDFORD WATER-LOAN SINKING-FUND.

THE Commissioners of the Water-Loan Sinking-Fund organized early. Daniel W. Lawrence, the Treasurer, has given a bond for $20,000, which is held by the Secretary of the Board.

In the present period of unexampled depression in business and finance, with large sums of money seeking investment, it is impossible to purchase suitable investment-securities yielding the desired rate of interest, except on the payment of seemingly exorbitant premiums. The Medford Water-Fund Bonds would undoubtedly be the most proper investment; but no owner of those bonds could be found, who was willing to sell them at a reasonable price. Sound and readily convertible securities have been purchased at the lowest market rates, and the Board have confidence to believe that they will prove satisfactory investments.

The following is a correct synopsis of the Treasurer's accounts: —

RECEIPTS.

P. R. Litchfield, Town Treasurer	$6,049 83
P. R. Litchfield, Town Treasurer	5,000 00
Howard National Bank, for interest on deposit .	29 69
City of Chelsea, for one year's interest on $5,000 of its bonds at 6 per cent	300 00
	$11,379 52

DISBURSEMENTS.

$5,000 City of Chelsea 6 per cent bonds due Aug. 1, 1891	$5,500 00

Digitized by the Medford Historical Society and Museum

5 months and 2 days' accrued interest on the same	$126 67
$5,000 City of Fall River 5 per cent bonds due May 1, 1908	5,100 00
1 month and 13 days' accrued interest on the same	29 86
Balance deposited in the Howard National Bank	622 99
	$11,379 52

Respectfully submitted,

SAMUEL C. LAWRENCE,
W. C. HASKINS,
JAMES O. CURTIS,
J. HENRY NORCROSS,
DANIEL W. LAWRENCE,
J. GILMAN WAITE,
Commissioners.

MEDFORD, Feb. 5, 1879.

REPORT OF THE FISH-COMMITTEE.

YOUR Committee would respectfully submit the following Report: —

The success attending the stocking of Mystic Lake with fish becomes more apparent every year by the increase of those varieties which have been put into the lake.

BLACK BASS.

There have been quite a number of black bass caught the past year, many having been caught by persons who did not know what they were, and thought they were white perch. We feel confident that in a few years they will be as plenty as the striped perch are at present.

LAND-LOCKED SALMON.

There have been a few land-locked salmon caught in the upper and lower ponds the past year. The largest, weighing about eight pounds, was caught in the upper lake by a gentleman from Winchester; and one weighing three and a half pounds was caught in the lower pond, which has been preserved, and is at the Museum of Zoölogy in Cambridge.

It is very gratifying to your Committee, also to the Fish-Commissioners for the State of Massachusetts, that so favorable a result has made itself manifest by the introduction into our lake of one of the finest varieties of fish that inhabit the waters of New England.

WHITE PERCH.

There is an abundance of white perch in the lake: great quantities of them have been caught the past year, and some very large, weighing nearly two pounds.

Digitized by the Medford Historical Society and Museum

SMELT.

The smelt continue to increase in our brooks, and some of the largest and finest flavor have been caught in the Mystic this winter; and there has been a great demand for Mystic-river smelt by the fish-dealers in Boston. We hope that the inhabitants of Medford, both old and young, will not molest them during the spawning season.

We should be very ungrateful if we did not tender our thanks to the Fish-Commissioners for their great liberality in furnishing us free of cost, the past two years, land-locked salmon and salmon-trout to stock the lake. It will be necessary that some more fish be put in the lake another year, and that a small appropriation be made for that purpose. We would therefore recommend an appropriation of seventy-five dollars.

JAMES P. RICHARDSON,
THOMAS PEARCE,
JOHN F. SANBORN,

REPORT OF THE SCHOOL COMMITTEE.

[Note. — As the Supervisor of Schools is a member of the Board, it is deemed best to incorporate his report with that of the School Committee.]

In reviewing the experience of the past year, the Committee take especial pleasure in referring to the improvement which has been made, under the vote of the town, in our school accommodations. By the building and occupancy of the new schoolhouse on Cotting Street, the long-existing pressure upon the lower departments of the Cradock and Everett Schools has been relieved, and we have been able to re-district the southern section of the town, under a system which gives to children the privilege of attending school in their own neighborhood. The Centre School has been discontinued, its scholars distributed among other schools, and we are freed from the considerable expense it entailed upon the town. We have all the more reason to be pleased with the last-mentioned change; as, to say nothing of the inferiority of the accommodations, the location of the school had ceased to answer its original purposes, — almost all the scholars who attended it having come from the other side of the river. We have been able also to consolidate the Cradock Primaries, 1st and 2d, thereby dispensing with the services of one teacher in that building.

The crowded condition of the Brooks Primary School, to which reference has been made in our recent reports, reached its climax last fall; and, with eighty-two scholars in the school, the Committee felt compelled to seek some measure of relief. Complaints were made by parents, and some of

Digitized by the Medford Historical Society and Museum

them had withdrawn their children from school. It was apparent that new accommodations must be sought for a portion of the scholars; and none could be found other than the vestry of the West Medford Congregational Church building, which, through the kindness of the Society, we were able to hire. A school has been established there under the charge of Miss E. M. Lane, favorably known as a former teacher of the Brooks Primary School. The new quarters are not all that could be wished, but they answer a temporary purpose. The school is made up entirely of scholars living west of the Lowell Railroad. In the opinion of the Committee, some early provision must be made for the permanent accommodation of the people in this portion of the town. We recommend the appointment of a committee to examine, and report cost and best location of a suitable building.

In taking such a step as the institution of a new school under the circumstances just mentioned, the Committee must always presume that the town wishes to have its children accommodated under safe sanitary conditions, with reasonable opportunities for attention and instruction. No school of eighty scholars, divided into four classes, can be well instructed or cared for by one teacher; and the ordinary schoolroom, at best capable of but imperfect ventilation, becomes a pest-house to children thus crowded together. It is needless to say that considerations of expense alone prevented the Committee from making the change earlier; and perhaps they ought to apologize to the town for their tardy action. Notwithstanding the depression of the times, they can hardly comfort themselves with the reflection that their failings have "leaned to virtue's side:" it would have been better to have sinned against economy than humanity.

CONDITION OF THE SCHOOLS.

The steady growth of the school establishment of this town has brought with it not only an increase of responsi-

Digitized by the Medford Historical Society and Museum

bility, but a multiplication of business details which makes no inconsiderable demands upon the time and thought of those intrusted with its charge. Your Committee, sharing the common interest which is felt by the citizens of the town in the maintenance and improvement of our system of public education, and deeply sensible of the self-sacrificing liberality of the expenditures which this community has made in its behalf, have aimed to secure for the town the fullest possible return for its outlay; and they are happy in believing that a good measure of success has rewarded the effort. If in some instances there have been shortcomings which gave occasion for regret, the average results of the operations of the year have been satisfactory, and have been marked by fewer drawbacks, and secured with less friction, than has been usual. A very large part of the credit is due to the excellent corps of teachers employed by the town; and we are especially indebted to the earnest labors and great executive ability of the principals of our grammar-schools.

SELECTION OF TEACHERS.

With increasing experience in the duties of their office, the Committee have become more and more impressed with the importance of sparing no effort to secure for our schools the best teachers which the means placed at their disposal will enable them to hire. This is the first and most important business of a school committee. Commonplace as this statement may seem to be, there are many temptations to a slack performance of the duty which it inculcates. In the first place, it is not an easy thing, in a brief interview, to get a clear insight into the character, or to form an accurate estimate of the abilities, of a candidate; and it should be remembered that candidates may possess character, scholarship, and a high order of ability, and yet be very poor teachers. Even testimonials of successful experience are worth little, unless it can be proved that the party who gives them has a higher standard of excellence than that which the

Digitized by the Medford Historical Society and Museum

ordinary performance of the functions of a district school-teacher affords; or that he does not belong to that amiable class of immortals who are always signing other people's petitions, and giving recommendations, out of sheer reluctance to disoblige their fellow-men.

Should the happy judgment of the Committee avoid these perils, another besets them of a more insidious nature. There is always a considerable body of young ladies, residents of the town, who are applicants for schools. Many of them are graduates of our High School, — ladies of unquestioned character and scholarship, with whom and with whose parents the Committee are personally acquainted, and whose interests of any kind the Committee would take pleasure in promoting in any proper way. The members of the Committee are naturally prejudiced in their favor, and, other things being equal, would not hesitate to give them the preference in their appointments to schools. But a higher duty should govern their choice; namely, to give the town the best teachers which the money placed in the hands of the Committee will enable them to hire. If teaching is a profession, it can only be learned by practice and experience; and we have a right to demand that aspirants for schools should serve their apprenticeship at lower wages than those which this town is offering for the single purpose of securing tried ability and the highest professional skill.

By these remarks, the Committee in no way intend to discourage the graduates of our schools from entering upon the profession of teaching: we only hold up to them a high standard of qualification for the profession. A majority of our teachers are natives of the town; and the claims of applicants, residents of Medford, who have taken pains to qualify themselves by practical experience in teaching, have always received respectful and sympathetic consideration from the Committee.

CHANGE OF TEACHERS.

It will be seen by the list appended that the number of teachers now employed by the town is thirty; of whom seven, including the teacher of music, are males. This number does not include the teachers of the Evening School, who are only temporarily employed.

We give, as usual, the changes which have occurred in our schools: —

Through inadvertence, no mention was made in our last year's report of the resignation of Mr. E. P. Sanborn, assistant in the High School, in the April of that year, and of the appointment of Mr. L. J. Manning to the vacancy. The members of the Committee have found good reason to congratulate themselves upon the selection thus made. Mr. Manning is a graduate of Harvard University; and to sound scholarship, and an unusual aptitude for the duties of an instructor, he adds the graces of a fine temper and kindly manners. The department of the High School under his charge has never been in sounder condition than it is at the present time.

A vacancy was created, in the early part of the year, in the assistant's department of the Swan Grammar School, by the resignation of Miss Ida M. Oliver, who had received an appointment to a more lucrative position in the Boston schools. Miss Oliver was one of our most successful teachers, and her withdrawal from the service of the town was much regretted by the Committee and the public. Her resignation was the occasion of several changes in the schools. Miss Anna Goodwin, of the Cradock Intermediate School, was promoted to the vacancy; Miss S. F. Hamblin, of the Cradock Primary No. 1, was transferred to the Cradock Intermediate, and her old place was filled by the appointment of Miss S. M. George. The success of Miss Goodwin and Miss Hamblin in their new positions was a foregone conclusion with the Committee, and their expectations have been fully

Digitized by the Medford Historical Society and Museum

answered. Miss George, in December last, was transferred to the Cummings Intermediate, where good results are expected from her labors. At the same time the Cradock Primaries, 1st and 2d, were consolidated, and placed in charge of Miss Jennie W. Waterman, for several years the successful teacher of the Cradock Primary 2d.

At the close of the summer term, the Committee received the resignation of Mrs. M. E. Crane (now Mrs. Smith), the popular teacher of the Everett Intermediate School. The vacancy was filled by the appointment of Miss Mabel W. Saxe, late teacher in the Dedham schools. In her early connection with the school, Miss Saxe has found some of its elements refractory; but we are satisfied that the difficulties she has met with have been, to a considerable extent, such as would have assailed any teacher called to the place.

The retirement of Miss F. C. Saxe (now Mrs. Stevens), about the same time, left a vacancy in the department of Drawing in the High School. The Committee have in a former report taken occasion to express their sense of the value of the services which were thus lost. After full inquiry, the place was filled by the appointment of Miss Isabel Webster, who has vigorously taken up the work left by her predecessor, and with a degree of success which affords the best proof of her thorough preparation for this branch of instruction. It has already been stated, that, at the opening of the Cummings School, the Centre School was discontinued. Miss A. M. Hollis, its teacher, was at once transferred to the Cummings Primary, and the school opens very favorably under her charge.

On the first of January last, Miss M. F. Camp (now Mrs. Belcher) resigned the charge of the Swan Intermediate School. The school had been for several years under her instruction, and her retirement was a serious loss to the public service. Miss Emma D. Hadley of this town was appointed to the vacancy; and the Committee are pleased to observe that the change of instructors has occasioned no in-

Digitized by the Medford Historical Society and Museum

terruption in the work of the school, and seemingly no injury to its discipline.

It is pleasant to record, that, notwithstanding the number of changes thus made, the welfare of the schools seems to have suffered no serious detriment, — a fact which redounds perhaps no less to the credit of the former than of the present teachers. A teacher appointed to the charge of a good school can have no better aid than its traditions.

The following is the list of teachers now in charge of the various schools of the town: —

High School,	Mr. Lorin L. Dame,	*Principal.*
High School,	Mr. L. J. Manning,	*Assistant.*
High School,	Miss C. E. Swift,	*Assistant.*
Brooks Grammar,	Mr. L. F. Hobbs,	*Principal.*
Brooks Grammar,	Miss H. F. Burbeck,	*Assistant.*
Cradock Grammar,	Mr. Henry Chase,	*Principal.*
Cradock Grammar,	Miss Mary L. Cotton,	*Assistant.*
Everett Grammar,	Mr. Rufus Sawyer,	*Principal.*
Everett Grammar,	Miss M. E. Hayes,	*Assistant.*
Swan Grammar,	Mr. Benjamin F. Morrison,	*Principal.*
Swan Grammar,	Miss Anna Goodwin,	*Assistant.*
Brooks Intermediate,	Miss Mary G. Carleton,	*Principal.*
Cradock Intermediate,	Miss S. F. Hamblin,	*Principal.*
Everett Intermediate,	Miss M. W. Saxe,	*Principal.*
James Intermediate,	Miss F. G. Waterman,	*Principal.*
Osgood Intermediate,	Miss I. F. Hartshorn,	*Principal.*
Swan Intermediate,	Miss E. D. Hadley,	*Principal.*
Cummings Intermediate,	Miss S. M. George,	*Principal.*
Tufts (mixed),	Miss E. M. Gill,	*Principal.*
Curtis (mixed),	Miss A. E. Durgin,	*Principal.*
Brooks Primary,	Miss J. E. Metcalf,	*Principal.*
Cradock Primary,	Miss J. W. Waterman,	*Principal.*
Everett Primary,	Mrs. Sarah K. Dean,	*Principal.*
James Primary,	Miss H. F. Wait,	*Principal.*

Osgood Primary,	Miss Carrie Cushing,	*Principal.*
Swan Primary,	Miss A. E. Cushing,	*Principal.*
Cummings Primary,	Miss A. M. Hollis,	*Principal.*
West Medford Primary 2d,	Miss E. M. Lane,	*Principal.*
Evening School,	Mr. R. J. Dwyer.	
Evening School,	Mr. J. N. Darling.	
Music,	Mr. Henry G. Carey.	
Drawing,	Miss Isabel Webster.	

HIGH SCHOOL.

A class numbering fifty was admitted to the High School the present year, making the whole number of scholars in the school one hundred and five. This is the largest attendance which the school has ever known, and the pressure upon the teachers is correspondingly great. It is impossible to give satisfactory instruction to a class of fifty pupils, unless the recitations are made in divisions, so that each pupil can be separately examined, his preparation for the recitation tested, and explanations suited to individual needs given by the teacher. Such work as this cannot be done for fifty pupils in forty-five minutes, — the longest time which the exigencies of the school will allow for a recitation. It is evident that we are subjecting the present staff of teachers to the severest strain which can be put upon them, and that in the future, either the number of teachers must be increased, or that of the scholars must be kept down, by requiring an advanced standard of qualification for admission. In justice to the teachers of the school, it should be stated that every moment of their time during the session is occupied by recitations, and that an extraordinary amount of work is done under very trying circumstances.

It is certainly better for teachers that there should be intervals of rest during school work, and the character of the work is sure to be improved by it. Labor performed under the high-pressure system may accomplish great results for a time, but it is sure to break down the machinery.

Digitized by the Medford Historical Society and Museum

The committee would award unqualified praise to Mr. Dame and his assistants for the zeal and ability with which the affairs of the school have been conducted during the past year, and for the general interest in their studies which is manifested by the pupils. The examinations made by the Committee furnished gratifying evidences of the thorough and systematic instruction given by the teachers, and the progress made by the scholars, during the past term.

The following are the names of those who composed the class which graduated from the High School the present year: —

Cora Dexter Farmer, Elizabeth Wheeler Gibbs, Amy Whitmore Jones, Lizzie Burbank Newhall, *Mary Ella Osborn, Sarah Mercer Puffer, Gertrude Samson, *Emma Josephine Wilcox, Walter Gould Clark, Charles Monroe Gleason, George Barzillai Means, *Fredd Hedge Thomas, Fred Henry Curtis Woolley, Philip Green Wright.

EVENING SCHOOL.

The Evening School was opened Oct. 6, under the charge of Messrs. R. J. Dwyer and J. N. Darling. The number of scholars was smaller than usual; and, after waiting vainly for an increase, one of the teachers, Mr. Darling, was discharged. The number of scholars continuing to fall off, the school was closed at the end of the second month.

While regretting that a greater interest should not be taken in the school by those who stand in need of the opportunities for instruction which it affords, the Committee have no choice left under the statutes but to recommend a renewal of the appropriation made for this purpose. About one half the sum appropriated last year remains unused; and the Committee will, of course, see to it that all future expenditure is proportioned to the demands for instruction.

We recommend an appropriation of $200 for the Evening School.

DRAWING.

We have already spoken favorably of the character of the

* In partial course.

Digitized by the Medford Historical Society and Museum

services rendered by Miss Isabel Webster, teacher of drawing. An appropriation for her salary the coming year will be needed.

We recommend an appropriation of $120 for instruction in drawing.

MUSIC.

The study of music in our schools is prosecuted with undiminished interest by teachers and pupils under the able supervision of Mr. Carey. The labors incidental to his employment have greatly increased during the last two years, owing to the increase in the number of schools and their widely separated location; and great credit is due to Mr. Carey for the fidelity and punctuality with which his duties are performed.

THE CUMMINGS SCHOOL.

The new school on Cotting Street has been honored with the name of our esteemed fellow-citizen, Mr. Charles Cummings. It has given the Committee, as we are sure it has given the town, great pleasure to pay this tribute of respect to the former Principal of the High School; and we can fondly trust that the name of a teacher so earnest and successful will prove auspicious to the fortunes of the new school.

It may be properly stated here, that the school starts under the most favorable circumstances, with seventy-six scholars in its two rooms. The building itself is a model of neatness and convenience, admirably suited to its purposes, and in every way creditable to its designers and builders.

SUPERVISION OF SCHOOLS.

A comparison of the table of statistics which follows with that of ten years ago, will suggest the increase of labor in the regulation and general care of the schools, and justify, were there not even stronger reasons, the recommendation of the Committee of a continuance of the present system of supervision.

STATISTICS.

We present the usual table of statistics: —

Digitized by the Medford Historical Society and Museum

REPAIRS AND GENERAL EXPENSES.

The Committee, not forgetful of the extreme rigor of the times, have endeavored to keep their expenses within the narrowest limits compatible with the interests of the town. Only the necessary repairs have been made upon schoolhouses; but the wear and tear incidental to the use of nine large buildings and their furniture necessarily make heavy demands upon the fund allotted to us. Water and the facilities for its proper use have been introduced into the Cradock and High Schoolhouses, the Board of Health having put an injunction upon the further use of the wells belonging to those buildings. Some of the buildings will soon need repainting, but perhaps can remain over another year without especial injury. While doubting whether the prudent private owner of similar property would deem it consistent with his best interests to allow even that amount of delay, the Committee leave it to the good judgment of the town to decide whether an appropriation to meet the more pressing wants would be expedient.

A reduction was made in the salaries of the teachers of the town at the close of the summer term, amounting in the aggregate to about $1000. The matter has received most careful attention at the hands of the School Committee; and we are confident that we have now made as great a reduction in the pay-roll as the interests of the schools will permit, in view of the increasing competition for the services of good teachers.

It will be seen below that the estimate for appropriations the coming year, notwithstanding the increase in the number of schools, is less than that of last year.

ESTIMATES.

We present the following estimates of the sums needed for expenditure for general school purposes the coming year, and recommend appropriations accordingly: —

Digitized by the Medford Historical Society and Museum

Salaries	$19,800 00
Stewardship	1,485 00
Fuel	1,400 00
Music	700 00
Repairs, &c.	1,800 00
	$25,185 00
