ANNUAL REPORTS.

ANNUAL REPORT OF THE SCHOOL COMMITTEE OF MEDFORD, FOR THE YEAR ENDING FEBRUARY 1, 1852.

The School Committee ask leave to submit their Annual Report as follows :

I.—CHANGES IN THE REGULATIONS OF THE SCHOOLS.

It was not without careful deliberation that the Committee decided to return to the former plan, with regard to the High School, viz., the employment of an Assistant with the Principal.

The reasons, that governed them in this change, are these. It appeared to the Committee that with all the reduction that had taken place in the number of pupils, too many (about sixty) were still left for the superintendence of one teacher, certainly for the object aimed at by former committees, the elevation of the standard of the School. We think that no teacher can have the entire charge of sixty scholars, and be able to carry them forward in the higher branches of science, without great inconvenience. His personal attention cannot be given minutely and thoroughly to each pupil.

The employment of an assistant relieves the principal of the immediate instruction of the lower classes, and allows his almost exclusive attention to the more advanced classes. It seemed desirable to the Committee that some studies should be introduced, which, if pursued, must demand still more of the Principal's time, and necessitate the employment of an Assistant.

By this plan, these studies, such as Algebra, Latin, and a more advanced History, have been entered upon, and the progress of the pupils, in these and other branches, shows most satisfactorily the gain to the higher classes, while those coming more especially under the charge of the Assistant, have suffered no detriment.

Another reason for the change was, the relative number in the

Grammar and High Schools. The keeping down of the number in the High School to an average sufficient for one teacher only, (which we think should not be more than forty-five,) would be practically a disuse of room and furniture that have been provided for a larger number, and necessarily throw back on the Grammar School too large a proportion of scholars. This is inevitable, unless the town should furnish at once another Grammar School. It is a serious question whether it is not already demanded.

Aside from this, it is known that many pupils are obliged to obtain what education they can before a certain age, when they must leave the school for more active duties. It is almost a necessity, therefore, that they be advanced somewhat according to age, if they are to have the benefit of the High School at all. A rigid rule of the very best scholarship would make it a very *select* school indeed, and shut out many altogether who may honestly improve up to the measure of their ability.

These are some of the reasons that induced the Committee to adopt the former plan of an Assistant, and its practical working confirms them in their decision.

II.—NEW SCHOOL HOUSES AND SCHOOLS AND FIXTURES.

Since the last Report two new School Houses have been erected,—one on Salem street, at the corner of Almont street, with two rooms for the accommodation of a Primary and an Alphabet School. The other at West Medford, on the corner of Brooks and Erving streets. This house also has two rooms; citizens of the district having subscribed liberally in addition to the appropriation by the town, for the purpose of securing a hall in the upper story, for the accommodation of a lyceum and other literary meetings. It seems proper, under the circumstances, that this privilege be granted, with certain limitations as to damages to the house. This School has adopted the title of "Brooks School," in honor of donations by the Brooks family.

Owing to the crowded state of the Cross street School in the Spring, the Committee hired the small vestry of the Baptist church, and opened another Alphabet School, under the charge of Miss A. A. Binney. This school was continued till the completion of the new house on Salem street, which made a new division of the district in that part of the town necessary.

During the Autumn, it was found that both the Alphabet Schools, on Union and Cross streets, were too large for profitable instruction, and therefore another Alphabet School was established in the basement of the High School building—a convenient portion of one of the reception rooms being petitioned off for that purpose, Miss G. Sanborn was appointed teacher in this school.

Many of the seats and desks in the High School being out of repair, and some of them very inconvenient for the larger scholars, it was thought best to furnish an entire new set of desks and chairs of the most substantial and convenient kind. Many of the

desks and seats removed were used in the place of broken ones in the Grammar School below, and all of them that are suitable will come into use in future repairs.

Emerson's Ventilators have been put on the Park street and Cross street School houses. This whole matter of ventilation needs more attention on the part of all who are interested in the physical education and health of children.

Additional expenses have been incurred by the Committee in the fitting up of temporary accommodations for schools, and fixtures needed in new school houses. It is a poor economy to put scholars where they have neither room to work *in*, nor tools to work *with*.

III.—CONDITION OF THE SCHOOLS.

Alphabet Schools.—Union street. Miss Fuller resigned her place in September, and was succeeded by Miss J. McLane. With the reduction of pupils made by transfer to another school, there has been a decided improvement in the order of this school. Under the faithful instruction of Miss M., the pupils are making very good proficiency, and it is confidently hoped will reach a still higher standard. The whole number of scholars is 46; average attendance 37.

Cross street. Miss Thompson was transferred in the Spring to the West Primary, and Miss S. Pratt appointed in her place. This school has been previously almost a *nullity*, from its crowded state and the miserable ventilation of the room. No parent could sit an hour in that room a year ago, when there was an average attendance even of pupils, without feeling that the grave-yard near by had a significant meaning. It was a place to *kill* children with a not very slow poison. The ventilation is now greatly improved, and the accommodations barely comfortable, though we cannot think the Town will long be satisfied with such a school-house. The last examination showed great improvement in this school, and was indicative of fidelity on the part of the teacher. The whole number of scholars is 62; average attendance 50.

Salem Street. - Miss A. A. Binney was appointed teacher in this school, having previously taken charge of a new Alphabet School organized in the spring. The new school in this district leaves hardly any thing to be desired in the way of accommodations. The order in this school is good, and the examination was very creditable both to the teacher and pupils. The whole number of its scholars is 53; average attendance 37.

High Street. A commodious room has been fitted up for this school in the basement of the High School building. It needs better furniture if it is to be permanently occupied. Miss G. Sanborn, teacher. The order of this school, and the recitations at the examination, showed a fine discipline on the part of the teacher, and the pupils evidently interested in their work. Whole number of scholars 45; average attendance 30.

PRIMARY SCHOOLS.

East Primary. This school sustained a very fine examination in the spring, under Miss James. The Committee regretted exceedingly that her health compelled her to resign the school altogether in the early part of the summer. Owing to her occasional absence on this account, and the temporary supply furnished in her place, the school lost somewhat of its high standing. Miss M. J. Dodge was appointed Principal in October. The Committee trust that under its present management, with the co-operation of its long-tried assistant, Miss Richardson, it will recover entirely its previous excellence. The last examination passed off as well as could be looked for, under the brief superintendence of the present teacher. Whole number of scholars 64; average attendance 56.

Salem Street. Miss J. L. Case has the entire charge of this school, and seems to have secured very strongly the affections and co-operation of the scholars. The order and proficiency of the school are excellent, and the last examination went off with great zest, leaving hardly any improvement to be suggested. The new room and furniture afford a strong stimulus both to teacher and pupils to do their duty heartily. Whole number of scholars 52; average attendance 45.

South Primary. The Committee think that this school is too large for one teacher, and the accommodations for it are not sufficient, nor creditable to the Town. And yet, with these deficiencies, the teacher, Miss Sylvester, has acquitted herself very well, and shows a fine tact for her work. The examination showed good order, and was well sustained throughout. Whole number of scholars 60; average attendance 52.

Brooks Primary. Miss Hooper resigned in the spring, and was succeeded by Miss A. F. Thompson, the present teacher. This school has suffered somewhat for want of proper accommodations; part of the time being without any house, and obliged to put up with such a room as the tornado left. With the new and tasteful house now furnished, and the interest manifested by the inhabitants there, it is confidently expected that this school will retrieve any former ill repute. The teacher has certainly sustained her part admirably. The last examination showed a very great improvement since she has had the superintendence of the school. The deportment of the pupils was unexceptionable, and their proficiency in the elementals of language presented a model for all our schools. Whole number of scholars 35; average attendance 30.

GRAMMAR SCHOOLS.

East Grammar. Mr. Sweetser, who has taught this school very successfully in past years, was compelled to resign in the autumn, on account of ill health. Mr. G. Standish was appointed Principal in November. He came highly recommended as a successful teacher, and from the brief acquaintance the Committee have made, and a cursory examination of the school, they are well satisfied that he will maintain its former high reputation. It needs a thorough trial of any teacher's skill to establish his success. His

assistant, Miss Dyer, seems to be doing her work with vigor and fidelity. Whole number of scholars 95; average attendance 79.

Centre Grammar. Mr. Gilman resigned his place last June, and Mr. O. Knapp was appointed Principal. A frequent visitation of this school has satisfied the Committee that Mr. K. is "a workman that needeth not to be ashamed," and that he has elevated very decidedly the general tone of the scholars. The examination in the fall was thorough, and gave much pleasure to all present. The proficiency in grammar was very marked and praiseworthy. The assistant, Miss Hadley, sustains her part with great skill and fidelity. Whole number of scholars 80; average attendance 65.

HIGH SCHOOL.

It seems to be expected that "a good report" will be given of this school as a matter of course. The Committee cannot do any otherwise. All who visit this school from time to time, as well as at the regular examinations, must bear testimony to the admirable qualities of the Principal, and the hearty co-operation of his pupils in all his plans. Besides the excellence of the examination in the studies, we wish to commend especially the regular attendance of most of the scholars in all weather. Tardiness and absences with many, are almost unknown. We think that the standard of the school has not been lowered, but rather advanced by the appointment of an assistant, Miss M. A. Richards, thus giving the Principal his whole time for the higher classes. Miss R. fills her place with fine tact, and her classes showed thorough training. Whole number of scholars 73; average attendance 68.

GENERAL CONDITION OF THE SCHOOLS.

While the Committee are satisfied that the schools, as a whole, are in as good a condition as in former years, and in two or three there is a marked improvement within the year, they wish to call special attention to some defects that should be earnestly considered both by teachers and parents.

One of these defects, tardinesses and absences, was so fully reported upon by the Committee of last year, and the force of considerations then presented was so manifest and just, that it needs not a labored argument now. This only we wish to urge, that if the citizens are willing to lose *one-fourth* of all their appropriations for schools in this manner, it is hardly consistent to complain on the score of economy that our educational expenditures are yearly increasing. The best accommodations and facilities for instruction should be afforded the punctual and diligent scholars. If others will be tardy and truant, let the blame fall on parents and guardians who patronize it, and the penalty visited upon the absentees in a very tardy promotion to higher schools. We annex, for illustration, the tardinesses and absences for the last year in the East Grammar School,—

Tardinesses,	-	-	-	-	-	-	1242
Absences,	-	-	-	-	-	-	1775 days.

Another defect that cannot be too often referred to, is the want of subordination to just authority in the schools. It is an increasing evil, that the pupils consider the restraints imposed upon them in school hours, as a sort of usurpation;—and this feeling is patronized too much in many cases, by an ill-considered hearing of complaints on the part of parents against the teacher. Hasty judgments are pronounced in the presence of children, and their stories taken with small abatement, until there comes to be a constant conflict in the feelings and conduct of the pupils with school authority. No teacher, however well intentioned or wise in his administration, can succeed, when it is understood by any of the scholars that they will be sustained in their insubordination at home. All cases of supposed injustice ought to be stated personally to the teacher, out of school hours, and redress sought, in a way that shall not be derogatory to the lawful discipline of the school. An appeal always lies to the Committee, and if brought at once to their attention, will hardly fail of giving redress in any real wrong.

In this connection, the Committee earnestly ask the co-operation of all parents and guardians, with the teachers, in the social and moral training of the pupils. We hold that *good manners* are an essential part of education, and that no deficiency is more fatal than a neglect of *moral culture*. It is the duty of the teacher under our statutes, to attend to this. But to do this effectually, he must have the hearty sympathy of parents, and the strict enforcement of good morals at home. Common dictates of interest and virtue will surely incline all parents, who have the well-being of their children at heart, to sustain to the utmost all regulations designed to cultivate truthfulness, decorum, purity, and reverence for God. The contagion of an impure, or lying, or profane boy, needs quite as much to be guarded against, as any physical plague. There could be no greater calamity befall our schools than the indifference of parents to this moral culture. To neglect it, is only a postponement of an evil that will work out its retribution of sorrow in after life. Not to sustain the teacher in it, is but saying “the jailor shall see to it bye and bye.” It seems to be taken for granted by many that our schools are intended only for instruction in certain branches of knowledge, and that any education of the manners or morals, is a sort of *intrusion*. But it could very easily be shown, that all the ends of instruction are in danger of being lost by neglecting social and moral training. The very stimulus to mental progress is furnished by the refinement and virtue that are inculcated by a teacher who promotes in the school “whatsoever things are pure, and lovely, and of good report.” The utmost vigilance therefore is needed on the part of parents and the guardians of education, that our schools do not become the hot-beds of semi-barbarism and a reeking immorality!

IV. — RECOMMENDATIONS.

It was recommended by a former Committee that a lot be secured by the Town on the south side of the river, for a new school

house, that would soon be needed in that vicinity. It is not known that any action has been taken upon the subject.

The Committee are unanimously of the opinion that the school house now occupied on Union Street, is not adequate, either in size, furniture, or location, for the number of scholars that must hereafter resort to it. It is in a very confined locality, the rooms are low and ill ventilated, the desks and seats are inconvenient, and the whole appearance of the building, externally and internally, is uninviting. The Primary department is already too full, and must of necessity increase; and the Alphabet school is relieved only by the withdrawal of pupils to a temporary school room. It is recommended that a lot be immediately purchased in a more airy place, and a new school house erected of ample dimensions, with accommodations for a Primary and Alphabet school, the whole arranged with single desks and seats.

The Committee would further recommend, that as there will still be a surplus of scholars in both the Primary and Alphabet departments, not provided for, that a new school house be built somewhere between the junction of Cross and Salem Streets and the head of Salem Street, with similar accommodations, for a Primary and an Alphabet school. The school house on Cross Street is altogether behind the age, and needs a good deal of repair to make it even decent and comfortable. The raising of the ground about it throws the water back upon the house and yard, in rainy and snowy weather, thus keeping the walls damp, and spoiling the play-ground of the children. The whole building is little better than a *nuisance*, and must very soon be abandoned altogether as a school house. If a new school house were built, it might be so modelled that, at some future time, when another grammar school is needed (which will be at no distant day), it could be so enlarged that the lower story might be appropriated to the Primary and Alphabet departments, and the second story to the grammar school.

We can find no argument against the building of these two houses the present year, except the large increase it will call for in the appropriations of the Town. But we hold that a true economy demands that our schools should not be cramped, or lowered in their moral tone by insufficient accommodations. A school cannot attain a high grade, where the pupils feel themselves put in a mean place, or crippled by low and sorry-looking desks and seats. We think that some of our schools have suffered heretofore in this respect, and that the Town has been full tardy enough in remedying the defect by the erection of two houses the past year. As a matter of fact, we think it will be found that towns in the vicinity of no higher valuation are ahead of us in the style of their school houses. If our growth demands these improvements, then it is best to meet the necessity promptly and efficiently. The population is rapidly increasing on Salem Street and its neighborhood, and would want all the accommodations that a new house will furnish.

It is still further suggested, that during the year, the seats and

desks in the East Grammar and Primary schools be exchanged for single seats and desks. Some of the desks now used require *nine* scholars to fill them, and thus increase the facilities for communication with one another, and throws together the studious with the indolent, the orderly with the vicious. The teacher is very much embarrassed in maintaining discipline with such an arrangement, and diligent, decorous pupils hindered greatly by those who are not. A pleasant room, and convenient desks for each scholar, appeal to the honest pride of the pupils, and stimulates them to a more faithful and manly improvement of their privileges.

APPROPRIATIONS.

The whole expense of the schools, this year, has been as follows, viz. :—

Salaries of teachers, - - - - -

Fuel, - - - - -

Furniture, repairs, and incidental expenses, - - -

There must probably be an addition of one school the coming year, and to provide for this, and schools already existing, the Committee would recommend to pay the salaries of teachers, and expense of fuel, an appropriation of \$4800.

REPORT OF OVERSEERS OF THE POOR.

The amount drawn on Treasury for Poor and Alms House, the past year, is \$2213 31. About \$190 have been received by the Treasurer on the State pauper account of last year, and there is charged the present year more than \$300 on the same account, showing a large increase. Our house has been filled to overflowing during the whole year, and we must again call the attention of the Town to the insufficiency of our accommodations for those whom by law we are to provide. Therefore we earnestly recommend the Town to appoint a committee with power to sell the present establishment, and bring forward a plan for a new and more commodious one on land lately purchased for this object, where the inmates can be advantageously employed in preparing materials for roads, as well as cultivating the land connected with it. Less has been accomplished by them on the roads this year

than during any preceding one, owing to the ill health of the Superintendent, Mr. Thompson, and also Charles Putnam, one of the inmates, on whom in former years we have chiefly depended.

Our expenses during the present year have been considerably increased on account of the tornado. Therefore we recommend that \$2000 be appropriated for the current expenses of the coming year.

ALEXANDER GREGG, }
 JOHN T. WHITE, } *Overseers*
 BENJAMIN R. TEELE, } *of the Poor.*

Medford, February 1, 1852.

REPORT OF THE SELECTMEN.

The Selectmen submit the following Report:—

According to a vote of the Town, at the annual meeting in March last, the Selectmen were required to draw all the orders upon the Town Treasury, for the several departments. This having been done, it has given an opportunity to the Selectmen to make some observations upon the expenses of the different departments, which they now submit to the Town.

The expenditure of money in all the departments has been very large during the past year, and is, seemingly, each year upon the increase, making the taxation, especially upon those inhabitants who hold unproductive real estate, with its present comparatively high rate of valuation for purposes of taxation, very burdensome. We think it must be evident to all, that in those departments where increased expenditure is not absolutely necessary, it is surely for the benefit of the Town to use the strictest economy.

In the department of public schools the expenses have considerably exceeded the appropriation during the past year, and the two new school houses, one in the easterly and one in the westerly part of the Town, have added very much to the usual expenses in that department. In that department, however, no expense judiciously applied can reasonably be regretted.

In the Fire Department the expense has been very large during the past year, and the expense may well be regretted, if we take into consideration the growing extravagance in the habits and practices of our engine companies, with their influence, &c. These companies must have, at the expense of the Town, their well-furnished rooms, fuel, lamps, &c., not for their regular business meetings only, but for every time they may choose to come together, which is usually every evening. At one of their meetings during the past year the engine house of No. 3 was set on fire and nearly destroyed, to be built up again, papered and furnished at the expense of the town. If the Selectmen of the town should use this room, fuel, lamps, &c., every evening, or once a week, even at the

expense of the town, without having any particular business to attend to, it would very properly be considered an imposition upon the town.

A vote of the town in March last required of the Selectmen to purchase land and erect an engine house for No. 2, nearer the square than the old engine house, also a house for the Hook and Ladder Company. Accordingly, land has been purchased on High Street, and a building erected, to accommodate, in the first and second stories the engine and hook and ladder companies. In the basement of the building there may be accommodations for a watch-house and lobby, or lock-up for prisoners, which has been very much wanted in the police department; also for a primary school room, which is wanted in that neighborhood. The appropriation made by the town for the engine and hook and ladder house was not sufficient to meet the expense of this building, owing to the high price of the land and to the additional room in the basement wanted for other purposes, and which it will require an additional appropriation to finish. The particular expense of this building will be reported to the town at the next March meeting. The old engine house of No. 2 has been taken down and sold, with the exception of the bricks, which were used in the basement of the new building. The land remains at the disposal of the town.

The ordinary expenses of the almshouse department have been higher than usual during the past year; most of the money expended for the supplies of the almshouse seems to have been laid out in small amounts at a time in the different stores in the town. If the Overseers of the Poor did not think it necessary in this way to patronize in their turn the different stores, but would buy their supplies in larger quantities or where they could buy them cheapest, a considerable saving would undoubtedly be made to the town.

A large amount of money has been expended upon the highways during the past year, and it seems to have been expended for work spread out over the whole year, instead of being systematically applied in the spring, when it would be more likely to turn to most account. If the work upon the highways could be let out on contract to the lowest bidder, as is done in the erection of buildings, probably the same work could be done at one-third less expense than it now is.

The Selectmen have attempted the past year to make a change in the police department of the town, by appointing one police officer, with a fixed salary for the year, who shall be responsible, in ordinary cases, for preserving order, without any additional expense to the town. All complaints of breach of the peace should be made to the police officer, or in his absence to some one of the constables delegated and paid by him for that purpose.

The guide-boards upon the highways where they intersect each other, in different parts of the town, not having been renewed for some years, are very much out of repair, and in some cases entirely destroyed. It being necessary for the town, according to

law, to erect and maintain such as in the opinion of the Selectmen are needed, the Selectmen have accordingly provided cast-iron signs to take the place of the old guide-boards, to be put up as soon as the season will admit of it.

It is important that the Selectmen should understand more particularly from the town their duty in relation to drawing orders upon the Treasury for the different departments. They now understand that they are to draw orders upon all bills regularly approved by the chairman of the respective departments. But after all the money is drawn that was appropriated to a particular department, shall they refuse any more? This may be done, we think, legally and properly under instructions from the town, in the case of all the departments, with the exception of the poor and almshouse departments, in necessary supplies to the poor, and also in case of repairing any dangerous place upon the highways.

The town now own a valuable amount of property in buildings, consisting of the town house, four large school houses, and the engine houses. The interest of the town requires that these buildings should not suffer from want of repair or neglect by those different committees who are now supposed to have the charge of them. The expediency of having some responsible and suitable person, regularly appointed or chosen by the town, whose business it shall be to see that these buildings do not suffer from want of repair, is now particularly recommended to the attention of the town.

In reference to the expenses of the town for the ensuing year, it will be necessary to take into consideration, besides providing for the ordinary expenses, the need of something being done towards a new burial ground, different accommodations for the town poor, and the repairs of the river wall on the line of South Street.

JAMES O. CURTIS, }
 PETER C. HALL, } *Selectmen*
 GEO. T. GOODWIN, } *of Medford.*

Medford, February 20, 1852.

REPORT OF THE BOARD OF ENGINEERS.

The condition of the Department is good.

The whole number of members is one hundred and thirty-two.

The several Engines are in good order, and all the apparatus belonging to them, except the hose, which is very rotten.

The Hook and Ladder carriage, together with all the apparatus, was purchased the last year at a cost of two hundred and sixty-nine dollars and twenty-four cents.

The house in which No. 1 is kept is in good order.

The house in which No. 3 is kept is in good order, the damage by fire having been repaired.

There is no house for Engine No. 2, nor for Hook and Ladder carriage, nor has there been for the last six months. The Board of Selectmen pulled down the engine house, and neglected to find a suitable one for the Engine.

The Reservoirs are in good order; the reservoir near the head of Ship Street has been put in good repair the past year.

The Department has been called out to fires in town the past year three times. Damages by fire is estimated at about \$11,00.

APPROPRIATIONS.

Your Board would recommend that the members of the Department be paid the same as last year. They would also recommend that an appropriation be made to defray the expenses of the Department for the ensuing year as follows:—

For pay of members, - - - - -	\$650 00
For ordinary expenses, - - - - -	500 00
For fifteen hundred feet of new leading hose, Roxbury size, - - - - -	1200 00

The expenses of the Department, the year ending Feb. 1, 1852, have been as follows:—

For pay of members, - - - - -	\$788 83
New Hook and Ladder Carriage and all the apparatus,	269 24
Repairing No. 3 Engine house, - - - - -	79 85
Repairing reservoir in Ship Street, - - - - -	23 83
Mr. Vining's bill for watering twenty-three ships, -	36 50
Shelton & Cheever's bill for repairing hose, - -	38 52
Ordinary expenses, - - - - -	398 19

The receipts of the Department for the year ending Feb. 1, 1852, have been as follows:—

For use of engine J. Q. Adams watering eighteen ships, - - - - -	\$152 00
Alexander S. Symmes to lot of old iron, - - - - -	3 60

All of which is respectfully submitted,

NATHAN RICHARDS, *Chief Engineer.*

Medford February 1, 1852.

REPORT OF THE SURVEYOR OF HIGHWAYS.

There has been expended on the general repairs of highways, the past year, about \$1200, and nearly \$50 in addition, for breaking out roads on account of snow. Quite a large proportion of the money appropriated was spent on the Cragie road leading to East Cambridge, Macadamizing the plains, and cutting a ledge on hill near Spot Pond. It will be necessary to pave the gutters in front of Town house, and to convey the water in front of Elbridge Teels, by laying a culvert in such direction as the town may direct. Many demands have been made for repairs on Fulton Street, but upon examination I found it of little consequence to attempt to improve the condition of the road, unless a larger amount of money be expended than was at my disposal, the road being very narrow, at many points not wide enough for two teams to pass; therefore it is for the town to say whether they will or not appropriate money for that object

For the ensuing year I would recommend the appropriation of \$1500 for the repairs of highways, not including Fulton Street.

ALEXANDER GREGG, *Surveyor of Highways.*

Medford, February 19, 1852.

REPORT OF COMMITTEE FOR AUDITING TREASURY ACCOUNTS.

The Committee chosen to audit the accounts of the Town Treasurer, and prepare a statement of Town expenses, &c., for the past year, for publication, have attended to that duty, and submit the following Report:—

Amount in Treasury Feb. 1, 1851, - - -	\$00,623 46
“ Received from Collection of Taxes, - - -	15,676 18
“ “ from temporary loan and other sources, (see Treasurer’s account,) - - -	15,488 72
	\$31,788 36

The disbursements have been as follows:—

Amount paid on Town debt, - - -	\$3050 00
“ “ “ Account of Schools, - - -	10,888 31
“ “ “ “ Highways, Bridges, and Street Lamps, - - -	2123 18
“ “ “ “ Poor and Alms House, - - -	2402 48
“ “ “ “ Fire Department, - - -	4734 05
“ “ “ “ Salaries and Fees, - - -	1075 49
“ “ “ Interest on Town Notes, - - -	943 46
“ “ “ Miscellaneous accounts, - - -	6653 83
	\$31,870 80

Deduct this amount, it being an out-standing demand against the Town, for land purchased for Engine, and Hook and Ladder House on High, Street, which was added to the Account of the Fire Department, to show the cost of the New House, - - -

	1000 00
	\$30,870 80
Amount of Cash in Treasury, Feb. 20, 1852, - - -	917 56
	\$31,788 36

Your Committee, to give the cost of the New Engine House, and New School House on Salem Street, have credited the Departments in their accounts, as follows:—The Fire Department, for old lumber sold from the old Engine House, \$55.00. The School Department, for land sold from School House Lot on Salem Street, \$525.61, which amounts are included in the above statement.

The expenditures in the several Departments have exceeded the amount appropriated, the sum of \$7770 80.

The sum appropriated for the public schools,			
was - - - - -		\$5000	00
The amount expended has been - - -		5512	90
Being an excess over the appropriation,		-----	\$512 90
The sum appropriated for New School Houses,			
was - - - - -		4500	00
The amount expended has been - - -		4849	80
Being an excess over the appropriation,		-----	349 80
The sum appropriated for Highways, Bridges, and Street Lamps, - - - - -		1800	00
The amount expended on same has been	1866	38	
" " paid for damages occasioned by defects in Highway - - - - -		256	80
		-----	2123 18
Being an excess over the sum appropriated,		-----	323 18
The sum appropriated for the Poor and Alms House, was - - - - -		1800	00
The amount expended has been - - -		2402	48
Being an excess over the sum appropriated,		-----	602 48
The sum appropriated for the Fire Department, was - - - - -		1400	00
The amount expended has been - - -		1810	56
Being an excess over the appropriation,		-----	410 56
The sum appropriated for new Engine, and Hook and Ladder House - - - - -		2200	00
The amount expended on same - - - -		2568	49
Being an excess over the appropriation,		-----	368 49
The sum appropriated for Reservoir, was		400	00
The amount expended on same, - - - -		300	00
Being less than the sum appropriated - - -		-----	100 00
The sum appropriated for Salaries and Fees, was - - - - -		1500	00
The amount expended has been, - - - -		1075	49
Being less than the sum appropriated		-----	424 51
The sum appropriated for Miscellaneous Ac- counts - - - - -		500	00
The amount expended under this head has been	6653	83	
Being an excess over the appropriation of \$5941 26 of which was expended on re- building the Town House.		-----	6153 83
The sum appropriated for the payment of Town debts - - - - -		3000	00
Amount paid on same, - - - - -		3050	00
Being an excess over the appropriation		-----	50 00

The sum appropriated for interest on Town Notes	- - - - -	800 00	
The sum expended for the same has been	-	943 46	
Which exceeds the appropriation			143 46
The nett current expences for the past year exceeding income have been	- - - - -	\$22,362 08	

Your Committee deem it their duty to call the attention of the Town to the vote passed at the last March meeting, as follows, viz:—"That all bills of the Several Departments, with their *vouchers*, be examined by the Selectmen, and that no bills be approved by them unless they are made out to the several Departments, to which they are chargeable; also, that the Selectmen only be allowed to draw orders for money on the Treasury."

We find there has been Bills passed by the Selectmen in gross amounts, some as large as Four Hundred Dollars, for money paid to different individuals, in sums from ten to eighty dollars, without vouchers. We presume these bills are correct, yet they may *not* be,—we have no means of knowing.

We also find two bills for funeral charges, of the same person, and of different amounts, made out by different individuals, approved and paid. Your Committee would recommend that the Vote referred to be strictly complied with, in order to guard against future occurrences of this kind.

It will be seen that the indebtedness of the Town has increased since last year, the sum of \$6750 which is accounted for by the purchase of Land, and building School Houses, and Engine, and Hook and Ladder House.

The sum recommended by the different Departments, and the Town Treasurer, is \$17,100.

From the Reports submitted, and from information derived from the Town Treasurer, and other sources, it will be necessary to make the following appropriations for the ensuing year, viz—

For support of Schools	- - - - -	\$5000 00	
" " " Poor and Alms House	- - - - -	2000 00	
" " " Highways	- - - - -	1800 00	
" " " Bridges and Street Lamps	- - - - -	500 00	
" " " Fire Department	- - - - -	2000 00	
" Salaries and Fees	- - - - -	1500 00	
" Interest on Town debt	- - - - -	1000 00	
" Miscellaneous and contingent expenses	- - - - -	1000 00	
" Payment on Town debt	- - - - -	2000 00	
" Out-standing and accruing demands	- - - - -	1000 00	
			\$17,800 00

Probable amount of income from Rents of Stores in Town House, Rent of Town Hall, Fish Rights, &c.	- - - - -		700 00
Leaving the sum to be raised for the aforesaid appropriations	- - - - -		\$17,100 00

Your Committee will therefore suggest the sum of \$18,000, as necessary to be raised by taxation, to defray Town Charges for the ensuing year, and payments on Town debt.

We also recommend that the Town Treasurer be authorized to hire on temporary loan, not exceeding the sum of \$2000, for the payment of demands on the Treasury, which may be made prior to the first of August next.

ALBERT H. BUTTERS,
 JAMES C. WINNEK,
 JOSEPH P. HALL, } *Auditing Committee.*
